

Fibre Distribution Frame

FD-01

Issue 2

ADC FDF-01 fibre distribution frame provides mounting locations for termination, splice and storage panels. This frame is with front and rear access with lockable doors. The FDF provides vertical slack storage and cable management. This ensures bend radius protection and better fibre management.

Features:

- 19" mounting
- Front and Rear double door with lock & key
- Right side - Vertical cable guide for patchcord routing
- Left side - slack storage spool for easy management
- Bend radius protection and strain relief
- Provision for Rear slack storage (Spool)
- Cable entry provision - top & bottom
- Side entry opening for cross connecting multiple racks
- Fibre cable management trough at the bottom
