ADC Structured Cabling Solutions
## Unloaded Modular Patch Panels

Unloaded Modular Patch Panel

ADC Structured Cabling patch panels are independently verified at a component level and available in a range of installation options. The modular Category 6 panel utilises the high performing cat 5e keystone jack, which uses a punch-down format for swift terminations. Modular panels offer complete flexibility within the communications room and with the patch panel. Flexibility is further enhanced by the 1U, 16, 24 and 32 port high density port formats. Ships with rear cable manager
